

## Blast Off Blues

[Verse]

Put on my helmet  
zip it up tight!  
Put on my helmet  
Ready to ride  
All strapped in  
and ready for to go  
Astronauts  
ready to explore

Countin' down  
from 3-2-1,  
Hear the engines roar!  
Ready for fun  
3-2-1 we're blasting off  
Let's go find  
an open door

[Chorus]

Flyin' to the moon!  
Rocket's blasting off  
Flyin' to the moon!  
Rocket's blasting off  
See the planets  
passing by  
On our way  
up to the sky  
See the planets  
passing by  
On our way  
up to the sky

[Verse]

Floating weightless,  
looking around

Hands held high  
Feet off the ground  
No more gravity  
Hear the engines sound

Looking down at Earth  
we see  
Oceans blue and fish in the sea  
Looking down from space  
In a shiny tube  
Moonquakes around us  
but what can you do?

[Verse]  
Can you see the craters, now  
big and deep all over the ground  
Like giant bowls  
Where the lunar rocks sleep  
We can see them  
time to jump and leap!

[Verse]  
Heading back to Earth  
Time to head back,  
let's all jump in  
Take the rocket  
for a spin  
All aboard our rocket ship  
made of gray titanium!

Ready to fly now  
and soar so high  
We see stars  
as they're gliding by  
C'mon everybody  
watch the moon  
Back on Earth now  
very soon

[Verse]

Heading back to Earth  
Back to Earth,  
landing safe and sound?  
Our feet and shoes  
securely on the ground !

See the planets  
passing by  
On our way  
up to the sky
